

PUBLIC HEARING - SEPTEMBER 13, 2010 - PORTERDALE CITY HALL - 6:30 PM - COMPREHENSIVE BUSINESS PLAN

The City of Porterdale has formed a Visioning Committee to ensure that Porterdale's Comprehensive Land Use Plan is not only consistent with the rules and regulations that govern the process, but, reflects the desires of the community in determining how the city will grow now and into the future.

A Public Hearing will be held as part of the regularly scheduled city council meeting to receive comments on the Community Assessment and Public Participation Plan prior to their submittal to the North East Georgia Regional Commission for review.

This is the Data book that the Visioning Committee will be using to do their work. The Hearing on September 13th is really an education and question and answer session. We will be first on the Council's Agenda.

All of you are an important part of this process. This is your time to "speak up" for Porterdale and help to develop a community Vision and Implementation Plan for the City of Porterdale. This is a very exciting time and I hope you can take the time to attend this Hearing. If you are not available to attend and have questions about what takes place OR if you would like me to keep you informed of the process, just let me know.

I have attached a copy of the orientation process to give you an idea of what we are doing. Click [HERE](#) to view the PDF file.

Please forward this to people you think might be interested in attending.

***Thank you!
Kay***
